

How do I get Google reviews?

Jeremy Stead - 2020-07-25 - Comments (0) - General

If you haven't already, you need to set up your Google My Business account. This is pretty simple, but you must have a physical address. Once GMB is set up, add in your opening hours, photos of your shop and stock, and information about your business, then you'll be on Google Maps, and you can start getting Google reviews from happy customers.

To make it easier, inside your Google My Business account you will find a link to send customers directly to. This makes it much easier for those who are unsure where to go to find your business, or leave a review.
